GETTY COPPER INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Six Months Ending June 30, 2025 and 2024
(Stated in Canadian dollars)

1. Nature of Business and Continuing Operations:

Getty Copper Inc. (the "Company") was incorporated under the Canada Business Corporations Act in September 1987 and its common shares are listed for trading on the TSX Venture Exchange. Subsequent to incorporation, the Company has gone through a number of name changes and in March 2003, its name was changed to Getty Copper Inc. The Company is in the business of mineral exploration and mine development in the Highland Valley area of British Columbia.

These consolidated financial statements have been prepared using IFRS Accounting Standards ("IFRS") applicable to a going concern, which contemplate the realization of assets and settlement of liabilities in the normal course of business as they come due. The Company has incurred losses since inception, has no source of operating revenue and at June 30, 2025, has a working capital deficiency of \$1,472,829. The Company has been and remains dependant on its capacity to raise funds via equity issuances under terms that are consistent with the best interests of shareholders in order to finance its operations. These conditions may cast significant doubt upon the Company's ability to continue as a going concern. These consolidated financial statements contain no provisions for adjustments which may become necessary if the Company becomes unable to continue on a going concern basis.

As the Company is in the exploration and evaluation stage, the Company has not yet determined whether its mineral rights contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral rights and the ability of the Company to meet its obligations are dependent upon the discovery of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the exploration and development of the mineral rights and future profitable production or proceeds from the disposition thereof.

2. Statement of Compliance and Basis of Preparation:

Statement of Compliance

These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standards 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). The accounting policies and methods of computation applied by the Company in these condensed interim consolidated financial statements are the same as those applied in the Company's annual financial statements as at and for the year ended December 31, 2024. The condensed interim consolidated financial statements do not include all of the information required for full annual financial statements. These condensed interim consolidated financial statements should be read in conjunction with the Company's December 31, 2024 annual financial statements

The interim consolidated financial statements of the Company for the six months ending June 30, 2025 and 2024 have been prepared by management and approved and authorized for issue by the Board of Directors on May 14, 2025. Shortly thereafter, the consolidated financial statements are made available to shareholders and others through filing on SEDAR.

Basis of Preparation

These interim consolidated financial statements include the accounts of the parent company and its inactive Canadian subsidiary, Getty Mineral Holdings Ltd. (82% equity interest). The financial statements of the Company's subsidiary are included in the consolidated financial statements from the date that control commences, until the date that control ceases. Control exists when the Company has the power, directly or indirectly, to determine financial and operating policies of an entity so as to obtain benefits from its activities. All intercompany balances and transactions have been eliminated.

2. Statement of Compliance and Basis of Preparation (Continued):
Basis of Preparation (Continued)

The interim consolidated financial statements have been prepared on the historical cost basis except for financial instruments classified as financial instruments at fair value through profit or loss, which are stated at their fair value, as explained in the accounting policies set out in Note 3. In addition, these consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

Judgements made by management in the application of IFRS that have a significant effect on the consolidated financial statements and estimates with a significant risk of material adjustment in the next year are discussed in Note 3.

All amounts are presented in Canadian dollars, unless otherwise indicated, as a significant amount of the Company's business is conducted in this currency.

Changes in accounting policies and comparability:

a) IAS 1 – Presentation of Financial Statements

An amendment to IAS 1 was issued in January 2020 and applied to annual reporting periods beginning on or after January 1, 2023. The amendment clarifies the criterion for classifying a liability as non-current relating to the right to defer settlement of a liability for at least 12 months after the reporting period. This amendment did not have a material effect on the annual financial statements.

b) Amendment to IAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies

In February 2021, the IASB issued amendments to IAS 1, *Presentation of Financial Statements* and the IFRS Practice Statement 2 *Making Materiality Judgements* to provide guidance on the application of materiality judgements to accounting policy disclosures. The amendments to IAS 1 replaced the requirement to disclose “significant” accounting policies with a requirement to disclose “material” accounting policies. Guidance and illustrative examples are added in the Practice Statement to assist in the application of materiality concept when making judgements about accounting policy disclosures. The amendments were effective for annual periods beginning on or after January 1, 2023, with early adoption permitted. Prospective application is required on adoption. These amendments did not have a material effect on the annual financial statements.

3. Material Accounting Policy Information:

a) Critical accounting policies, key judgements and estimates

The preparation of the consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities as well as the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual outcomes could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

3. Material Accounting Policy Information (Continued):

b) Critical judgements in applying accounting policies

The following are the critical judgments, apart from those involving estimations that management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the consolidated financial statements:

i. Impairment

Exploration and evaluation assets and property, building and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be fully recoverable. If an asset's recoverable amount is less than the asset's carrying amount, an impairment loss is recognized. Refer to Notes 6 and 7.

ii. Going concern

Judgement is used in determining the Company's ability to continue as a going concern in order to discharge its obligations as they fall due.

c) Key sources of measurement uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period:

i. Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of a past event; it is probable that the Company will be required to settle that obligation and a reliable estimate can be made of the amount of the obligation. The amount recognized as a provision is the best estimate of the consideration required to settle the related liability, including any related interest charges, taking into account the risks and uncertainties surrounding the obligation. The Company assesses its liabilities and contingencies based upon the best information available, relevant tax laws and other appropriate requirements. Refer to Note 9.

Fair Value

The Company estimates that the fair value of these financial instruments, excluding the debenture, approximates the carrying value at June 30, 2025 and December 31, 2024, respectively.

All financial instruments revaluated at fair value must be classified according to a hierarchy containing 3 levels:

- i. Level 1 – Fair values based on quoted prices (unadjusted) in active markets for identical assets or liabilities;
- ii. Level 2 – Fair value techniques based on inputs other than quoted prices included in Level 1 that are observable on the market for the assets and liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- iii. Level 3 – Fair values based on inputs for the assets and liabilities that are not based on observable market data.

5. Amounts Receivable:

	June 30, 2025	December 31, 2024
GST recoverable	\$ 11,361	\$ 9,655

6. Exploration and Evaluation Assets:

The Getty mineral claims are contiguous and are located within the Kamloops Mining District of Highland Valley, British Columbia. Building and equipment depreciation included in exploration costs during the six months ending June 30, 2025 amounted to \$1,162 (2024 - \$1,211).

During fiscal 2017, the Company amalgamated a majority of the mineral property claims. In prior years, the Getty Northwest, Getty Central, Getty North and Getty Southwest properties were presented separately. These properties have been consolidated as the Getty property for financial statement presentation purposes.

The Company acquired a 100% interest in the Getty North Property in 1992 from two private corporations controlled by Getty's then president. As consideration, the Company issued 4,608,492 common shares to each of the private corporations involved, subject to the Company obtaining a valuation on the property establishing a minimum value of \$2,304,246 and the approval of the securities commission in existence at that time. The property is subject to a 1.5% net smelter return royalty in favour of a private corporation controlled by the former Chief Executive Officer ("CEO") of the Company.

The Getty Northwest property claims were acquired by the Company through staking this property.

This property is also subject to a 1.5% net smelter return royalty in favour of a private corporation controlled by the former CEO of the Company.

The Company originally entered into an agreement to acquire a 50% interest in the Getty Central, Getty South and Getty Southwest mineral rights from Robak Industries Ltd. ("Robak"), a private corporation controlled by the former CEO of the Company. Certain terms and conditions laid out in this original contract were not met and on November 8, 2002, the Company and Robak terminated the original agreement and entered into a subsequent agreement for the Company to acquire a 100% interest in the Getty Central and Getty Southwest mineral rights and a 50% interest in the Getty South mineral rights in exchange for 6,000,000 common shares of the Company at a deemed value of \$1,200,000. The Company also agreed to pay 100% of the costs to place the Getty South mineral rights into production and granted a 1.5% net smelter royalty on all of these claims in favour of Robak.

Pursuant to asset purchase agreements between Getty Minerals Holdings Ltd. ("GMH") and the Company and Robak dated September 22, 2015, the Company and Robak agreed to transfer their respective interests in the Getty Claims (as defined) to GMH on the basis that the fair market value of their interests in the Getty Claims represent 82% and 18% respectively of the fair market value of their combined interests in the Getty Claims. The purchase price of the mineral property interest will be 82% (the Company) and 18% (Robak) of the fair market value of their combined interests. GMH will pay the purchase price by issuing 8,200 Class B (the Company) and 1,800 Class C (Robak) preferred shares at a deemed consideration per share equal to the purchase price divided by the number of preferred

shares issued and the redemption amount of the preferred shares being equal to the purchase price per share. As of June 30, 2025, neither party has transferred their respective interests in the Getty Claims to GMH.

Title to mining properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mining properties. The Company has investigated title to all of its mineral properties and, to the best of its knowledge, title to its properties are in good standing.

10. Indemnity:

In April 2009, the Company reached a settlement with one of its Directors to indemnify him for approximately 88% of legal expenses incurred during 2004 to 2007 in connection with his prosecution of legal actions against former Directors who were alleged to have improperly attempted to impugn for personal reasons a 2002 mineral property interest sale agreement ("MPISA") between the Director's company and the Company. The settlement was premised on the fact that the Director's legal actions were of benefit to the Company in the conduct of its own litigation in defense of the MPISA. The settlement provided that the Director was entitled to receive \$650,000 by way of cash of \$50,000 upon execution of a definitive agreement and a secured debenture of \$600,000 bearing interest at 6%. In November 2016, the indemnity and accrued interest was repaid with the funds from a Debenture. See Note 11.

11. Debenture:

During November 2016, the Company executed a \$900,000 debenture with a company controlled by the former CEO of the Company. The debenture bears interest at 6% per annum calculated yearly, not in advance, and matures on August 31, 2026. The principal balance plus all unpaid interest will become immediately due and payable in the event of one of the following:

- three days after the Company has completed, and received the proceeds from, one or more securities offering(s) where the aggregate proceeds are at least \$2 million;
- the date on which the Company sells all or substantially all of its assets; or
- the date on which there is a transfer of the Company's shares which results in more than 50% of the shares being beneficially owned, directly or indirectly, by persons other than the former CEO of the Company and any related party.

The debenture is secured by:

- a fixed and specific first mortgage, pledge and charge to and in favour of Robak over: (i) all Crown grants, lands and other real and immovable property owned by the Company together with all appurtenances, buildings and fixtures located thereon; and (ii) all furniture, machinery equipment, vehicles and accessories and other goods and chattels of the Company; and
- a security interest by way of a floating charge on the whole of the Company's undertaking and all of its mineral claims, agreement rights, property and assets, but excluding the property subject to the mortgage.

The Company has the right to prepay, in whole or in part and subject to a \$10,000 minimum payment, the debenture together with any accrued and unpaid interest without notice, penalty or bonus.

The debenture proceeds were used to repay \$824,625 in liabilities as follows:

- \$581,647 (indemnity of \$450,000 plus \$131,647 in accrued interest) payable to the former CEO of the Company;
- \$2,109 (expense reimbursement) payable to the former CEO of the Company;
- \$176,119 (loan proceeds of \$171,000 plus \$5,119 in accrued interest) payable to a company with a common director;
- \$56,350 (management fees of \$52,500 plus \$3,850 in taxes) payable to a company with a common director; and
- \$8,400 (rent of \$8,000 plus \$400 in taxes) payable to a company with a common director.

At December 31, 2024, the fair value of the debenture was approximately \$1,448,000 (2023 - \$1,365,000). Fair value was determined using an income approach. An income approach is a present value technique that takes into account the future cash flows that would be expected to be received from holding the debenture as an asset. Present value was calculated using the following attributes – future lump sum payment consisting of principal and accrued interest of approximately \$1,543,000, 13 months to maturity and a discount rate of 6%.

Fiscal 2025

On June 25, 2025 the Company closed a non-brokered private placement, by issuing 12,000,000 flow-through units at \$0.05 per unit for proceeds of \$600,000 (the “FT Units”) and 2,500,000 non flow-through units at \$0.04 per unit for proceeds of \$100,000 (the “NFT Units”)

Each FT Unit consists of one flow-through common share and one whole warrant which will entitle the holder to purchase one common share at a price of \$0.075 per share for a period of two years from issuance. Each NFT Unit consists of one common share and one whole warrant which will entitle the holder to purchase one common share at a price of \$0.06 per share for a period of two years from issuance. All securities issued in connection with the private placement are subject to a four-month statutory hold period. The Company paid no finders fees in connection with the private placement.

During January 2025 the Company received TSX Venture Exchange approval and has issued 11,650,000 common shares of the Company (the “Shares”) at a deemed price of \$0.05 per Share to settle \$582,000 of indebtedness (the “Debt Settlement”). Under the Debt Settlement, 10,000,000 Shares were issued to non arms length creditors who are controlled by John Lepinski, who is a control person of the Company. Additionally, 1,650,000 share purchase warrants exercisable at a price of \$0.05 per share for a period of two years from issuance were issued to an arms length creditor. The Shares issued to insiders are exempt from the requirements of MI 61-101 under s.5.5(a) and (b) and 5.7(1) (a).

Fiscal 2024

On January 9, 2024 and March 22, 2024, the Company completed the first and second tranches of a non-brokered private placement of 7,500,000 and 1,000,000 units (“Units”), respectively, at a price of \$0.05 per Unit for gross proceeds of \$425,000. Each Unit was comprised of one common share and one additional common share purchase warrant, with each warrant entitling the holder to purchase one additional common share at \$0.075 per share for a period of two years from the date of issuance.

On August 30, 2024, the Company completed a non-brokered private placement of 9,000,000 Units at a price of \$0.05 per Unit for gross proceeds of \$450,000. Each Unit was comprised of one common share and one common share purchase warrant, with each warrant entitling the holder to purchase one additional common share at \$0.075 per share for a period of two years from the date of issuance.

The Company incurred share issue costs of \$15,141 in connection with the private placements.

At the Company's 2023 Annual General Meeting held June 20, 2023 the shareholders approved a new Incentive Stock Option Plan to replace the previous share option plan with a 10% rolling plan whereby the aggregate number of Common Shares that may be reserved for issuance pursuant to options shall not exceed 10% of the issued and outstanding Common Shares of the Company at the time of the granting of options.

Fiscal 2025

In February 2025, the Company granted 1,787,890 stock incentive options, of which 1,000,000 were granted to consultants and 787,890 were granted to officers of the Company. The options were granted at an excise price of \$0.05 per common share, with those granted to consultants expiring two years from the grant date and those granted to officers expiring five years from the grant date.

Fiscal 2024

On May 16, 2024, the Company granted 1,187,110 stock incentive options, of which 1,000,000 were granted to directors and 187,110 were granted to an employee. The options were granted at an excise price of \$0.05 per common share expiring on May 15, 2029. The vesting period was waived. These options were issued to replace expired options.

For the six months ending June 30, 2025, \$39,273 (2024 - \$55,794) in share-based payments was recognized in the statement of comprehensive loss for options granted to adjust share-based compensation to fair value.

14. Capital Management:

The Company manages its capital structure and makes adjustments to it based on available funds in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital to include its working capital position and capital stock, warrant, and option components of its shareholders' equity.

The Company manages its capital structure in a manner that provides sufficient funding for operational activities. Funds are primarily secured through a combination of equity capital raised by way of issuing equity instruments and external debt. In order to maintain or adjust the capital structure, the Company may attempt to raise additional financing through the issuance of new equity instruments, the exercise of outstanding common share purchase warrants and stock options. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the six months ending June 30, 2025. The Company is not subject to externally imposed capital requirements.

15. Financial Risk Factors:

The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner. The Company does not enter into or trade financial instruments including derivative financial instruments, for speculative purposes.

15. Financial Risk Factors (Continued):

GETTY COPPER INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Six Months Ending June 30, 2025 and 2024
(Stated in Canadian dollars)

a) Credit risk

Credit is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligation. The Company is of the opinion that credit risk is currently minimal.

b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages its liquidity by ensuring there is sufficient capital to meet short and long-term business requirements, after taking into account cash flows from operations and the Company's holdings of cash and cash equivalents. The Company also strives to maintain sufficient financial liquidity at all times in order to participate in investment opportunities as they arise, as well as to withstand sudden adverse changes in economic circumstances.

The following table details the Company's expected remaining contractual maturities for its financial liabilities at December 31, 2024. The table used is based on the undiscounted cash flows of financial liabilities based on the earlier date on which the Company can be required to satisfy the liabilities.

As at June 30, 2025	6 months or less	6 to 12 months	1 to 2 years	Over 2 years	Total
Accounts payable and accrued liabilities, and provisions	\$ 878,985	\$ –	\$ –	\$ –	\$ 878,985
Loans payable	–	1,332,072	–	–	1,332,072
Debenture	–	–	1,227,952	–	1,227,952
	\$ 878,985	\$ 1,332,072	\$ 1,227,952	\$ –	\$ 3,439,009

c) Interest rate risk

Interest rate risk is the risk borne by an interest-bearing asset or liability as a result of fluctuations in interest rates. The Company currently has no assets or liabilities subject to fluctuating rates of interest and consequently, the Company is of the opinion that interest rate risk is currently nominal.

16. Related Party Transactions:

In addition to balances and transactions described elsewhere in these consolidated financial statements, the Company had the following balances with officers and directors of the Company and companies with which officers or directors are associated:

	June 30, 2025	December 31, 2024
Payable to companies controlled by the former CEO	\$ 206,243	\$ 203,093
Payable to the former CEO (expense reimbursements)	17,670	17,670
	\$ 223,913	\$ 220,763

These amounts are unsecured, non-interest bearing and have no fixed terms of repayment. See Note 8.

18. Additional Information:

On August 28, 2018, Dentons filed a Notice of Civil Claim in the Supreme Court of British Columbia seeking judgment against the Company in the amount of \$227,837 in respect of outstanding invoices for legal services (the “Alleged Indebtedness”). On September 27, 2018, the Company filed a Response to Civil Claim in which it denied the Alleged Indebtedness and filed a Counterclaim against Dentons and one of its partners (the “Partner”) in which it sought damages for breaches of duty (“Getty’s Claims”). On October 31, 2018, Dentons and the Partner filed a Response to Counterclaim in which, inter alia, they denied committing any breach of duty owed to the Company. On November 29, 2022, Dentons filed a Notice of Discontinuance in which it discontinued its debt action against the Company in its entirety. On April 12, 2023, Dentons and the Partner filed an Amended Response to Counterclaim in which they claim that Dentons is still entitled to set-off the Alleged Indebtedness against any amount the Company may receive on its Counterclaim. On April 26, 2023, the Company filed a Reply to the Amended Response to a Counterclaim in which it disputes that a set-off claim is available to Dentons.

In February 2025, the Company settled its legal proceedings with Dentons and the Partner on the following terms:

- the Company, Dentons and the Partner (collectively, “the Parties”) will execute and file a consent order in the Supreme Court of British Columbia dismissing the Company’s counterclaim against Dentons and the Partner (the “Counterclaim”) as if tried on the merits;
- each of the Parties will bear their own costs; and
- the Parties will execute and exchange a mutual release in which:
 - Dentons and the Partner release the Company with respect to any and all alleged indebtedness of the Company to Dentons for legal services and disbursements, including the amount of \$227,837 alleged to be owing by the Company to Dentons in Dentons’ response to the Company’s Counterclaim; and
 - the Company releases Dentons and the Partner of all claims it now has or may have with respect to anything arising from or relating to the subject matter of the Counterclaim.

19. Subsequent Events:

On August 5, 2025, the Company entered into a binding letter of intent (the “Binding LOI”) with 1390120 B.C. Ltd. (“Numberco”) to acquire all of the issued and outstanding shares of Numberco (the “Acquisition”). The material terms of the Binding LOU are as follows:

1. Getty will acquire all of the issued and outstanding shares of Numberco in exchange for an aggregate of 13,000,000 common shares in the capital of Getty (each a “Getty Share”) (on a post-Consolidation basis).

GETTY COPPER INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
For the Six Months Ending June 30, 2025 and 2024
(Stated in Canadian dollars)

2. The outstanding Numberco stock options and warrants will be replaced with an aggregate of 1,300,000 Getty stock options and 400,000 Getty share purchase warrants (on a post-Consolidation basis).
3. The board of directors and management team of Getty will be reconstituted.
4. The completion of the Acquisition is subject to the satisfaction of various conditions, including but not limited to satisfactory completion of due diligence by Getty and Numberco, completion of the Concurrent Financing, execution of a definitive agreement in respect of the Acquisition, approval of the Acquisition by the holders of Getty Shares (the "Getty Shareholders"), approval of the listing of the Resulting Issuer Shares on the TSX-V, and other conditions customary for a transaction of this nature.
5. Immediately prior to closing the Acquisition, the Getty Shares will be consolidated on a 5:1 basis (the "Consolidation").
